

Generic mandatory statement on botulinum toxin/anti-wrinkle injections or wrinkle relaxer

Ask your healthcare professional if anti-wrinkle injections with botulinum toxin is right for you.

Botulinum toxin injections are prescription medicine for the treatment of frown lines, horizontal forehead lines, and crow's feet round the eyes. Botulinum toxin injections have risks and benefits. Ask your doctor if botulinum toxin injection is right for you. If you have side effects, see your doctor. You will need to pay for your botulinum toxin injection and clinic fees will apply.

For details on precautions and side effects consult your doctor or go to www.medsafe.govt.nz.

Botulinum toxin injections last about 4 months and further courses of treatment may be necessary. Should only be administered by trained medical professionals.
